A SSISTANT QUARTERMASTER'S OFFICE, FORAGE AND BIVER TRANSPORTATION FORAGE AND RIVER TRANSPORTATION SEVENTH STREET WHARF, WASHINGTON, D. C., August 25, 1864.

CIECULAR. In accordance with instructions from Brigadier General D. H. Rucker, Chief Quartermaster, Depot of Washington, I have placed schooners at Upper and Lower Cedar Points, in the positions occupied by the light boats, previous to their destruction by the rebels. From sunset until sunrise a light will be swang from each of the schooners. The reason given by captains of vessels, chartered and owned by the captains of vessels, chartered and owned by the United States Quartermaster Department, for anchoring in the Petomac river at night, was, that they feared that they would run their vessels aground if they attempted to run past the shoals after dark. The lamps placed on the schooners will give a light sufficiently strong to enable all pilots to pass up and down the river with safety, provided they govern themselves by the charts provided by United States Coast Survey.

From and after this date, no vessel propelled by steam will be allowed to anchor, excepting in such weather as by running the loss of the vessel by steam will be allowed to anchor, excepting in such weather as by running the loss of the vessel or cargo might be endangered.

All masters of vessels are directed to report any neglect on the part of the parties on board of the light schooners, in not keeping their lights burning at all hours of the night.

A cepy of this circular will be kept posted in the pilot house of every vessel owned and chartered by the Government, plying on the Potomac river.
